# Precision Crafted Ice

We are commitment to innovation,  
affordability, and excellence.

Experience unparalleled cooling efficiency with Heuch's advanced ice makers, meticulously crafted for diverse applications. As a leader in the cooling industry, Heuch introduces a range of ice makers tailored to meet the unique demands of various sectors. Dive into a world where precision meets performance and discover the Heuch difference.

## UNDERSTANDING THE ART OF ICE MAKING

Ice-making is not just about freezing water; it's about crafting the perfect ice for every application. From the bustling bars of Sydney to the serene resorts of Queensland, the type and quality of ice play a pivotal role. Heuch ensures that every ice type, be it flake, tube, or cube, meets the highest standards of purity and consistency.

## DIVERSE RANGE, UNMATCHED EFFICIENCY

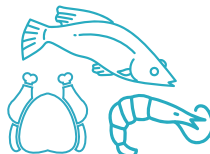

Ice maker lineup caters to various industry needs with distinct features. Cube ice machines are robust, offering a vast range from 1 to 20 tonnes daily, suitable for large-scale operations. Flake ice machines boast high-efficiency heat transfer, ideal for medical and food sectors requiring rapid cooling. Meanwhile, tube ice machines provide flexibility with customisable ice sizes, serving everything from hospitality to industrial cooling with their unique hollow cylinder ice. Each machine is designed with sector-specific requirements in mind, ensuring optimal performance and energy efficiency.

## PRODUCT-SPECIFIC ADVANTAGES FOR DIFFERENT SECTORS

### *Hospitality*

Elevate the guest experience with perfect ice for every drink, from the classic cocktails to the refreshing iced teas.

### *Industrial Use*

From cooling processes to machinery maintenance, Heuch's ice makers offer the perfect solution for a range of industrial applications.

### *Medical Facilities*

Ensure samples and specimens remain at optimal temperatures with our precision-engineered flake ice.

# Beyond Ice Making: A Heuch experience

Explore the world of Heuch, where advanced technology meets artisanal craftsmanship in ice making, setting new benchmarks in the cooling industry.

## ICE MAKERS RANGE

### CUBE ICE MACHINES

Widely used in hotels, restaurants, bars, banquet halls, fast-food shops, chain stores, drink shops, and more.

### FLAKE ICE MACHINES

Ideal for food display counters, medical applications, and various industrial processes due to its rapid cooling properties.

### TUBE ICE MACHINES

Perfect for daily use, vegetable fresh-keeping, pelagic fishery fresh-keeping, chemical processing, building projects, and other places requiring ice.

**Capacity Range:** From 1ton/day to 20tonnes/day.

- Produces cube ice or square ice.
- Ice size options.
- Large capacity with different options from 1ton/day to 25tons/day.
- Automatic operation with PLC program control.
- Ice is transparent, crystal, hard, regular and sanitary.

**Capacity Range:** From 200kg/day to 30tonnes/day.

- High-efficiency heat transfer.
- Low power consumption.
- PLC control system with multiple fault protection.
- Evaporator drum made of stainless steel 304 or carbon steel chrome.
- Flake ice characteristics: dry, pure, powder-less, not easy to block, with a thickness of about 1.8mm~2mm. The ice lacks edges or corners, ensuring food protection during processing.

**Capacity Range:** From 1ton/day to 30tonnes/day.

- Produces tube ice that looks like a hollow cylinder.
- Ice outer diameter options: 20mm, 28mm, 34mm, 40mm.
- Ice length options: 30mm, 35mm, 40mm, 45mm, 50mm.
- Ice inner diameter is adjustable, usually between 5mm-10mm.
- Mainframe adopts SUS304 stainless steel for durability and hygiene.

## YOUR ICE, OUR MISSION

From hospitality to healthcare, from refreshment to industrial resilience, Heuch's ice makers are engineered for you. It's not just about making ice; it's about crafting the cool that defines your business.

We offer more than just innovative ice making technology. Our commitment extends to providing a seamless integration and unwavering support system for your business.

With Heuch, you're not just purchasing a product; you're investing in a partnership that guarantees enhancement of your operational efficiency.

## SEAMLESS IMPLEMENTATION & UNWAVERING SUPPORT

Heuch is dedicated to ensuring the flawless integration of our ice makers into your setup. From the initial consultation to post-sales support, our team is here to assist, ensuring you get the most out of your investment.

## HEUCH'S LEGACY IN THE COOLING INDUSTRY

Discover how Heuch is setting new benchmarks in the cooling industry, enhancing product quality, and offering solutions tailored to specific needs. Our commitment to innovation, affordability, and excellence makes Heuch the preferred choice for businesses across various sectors.

## MAINTENANCE & SERVICING

### RELIABLE EQUIPMENT IS CRUCIAL TO THE SUCCESSFUL OPERATION OF YOUR BUSINESS

Our highly skilled and experienced refrigeration service technicians are available 24 hours a day, 365 days a year and are fully supported by our in-house engineering team.

With technicians for industrial and commercial refrigeration services, air conditioning, solar energy, heating and cooling as well as breakdown services; you can be assured, whatever you need we have the right person for the job.
